

PRIYAM MAHARANA

SQL DEVELOPER

+91 7091318244 | priyammaharana.data@gmail.com | linkedin.com/in/priyammaharana | Bengaluru

PROFESSIONAL SUMMARY

SQL Developer with 6 months internship experience in database development, ETL pipelines, and data modeling. Proficient in query optimization, indexing, and data warehousing concepts (SCD, CDC). Processed 5M+ records and improved query performance by 30–40%.

TECHNICAL SKILLS

- **SQL & Database:** SQL Server, MySQL
- **Core SQL:** Joins, CTEs, Window Functions, Stored Procedures, Views
- **Performance Optimization:** Query Optimization, Indexing, Execution Plans
- **Programming:** Python (Pandas, NumPy)
- **Data Engineering:** ETL Pipeline, Data Modeling, SCD Type2, CDC, Data Validation
- **Tools & Practices:** GitHub, VS Code, Power BI, Documentation.

PROFESSIONAL EXPERIENCE

SQL Developer Intern

Labmentix Edtech - Bangalore | Apr 2025 - Oct 2025

- Developed complex SQL queries (joins, CTEs, window functions) for reporting.
- Optimized slow-running queries using indexing and execution plan analysis, reducing query execution time by 30–40%.
- Built ETL pipelines processing 5M+ records using Python and SQL Server ensuring 99% data accuracy.

PROJECTS

OLA Rides Data Pipeline & Analytics Platform

Tech: Python, SQL Server, Power BI, Rest APIs

- Built scalable ETL pipeline processing 5M+ ride records to analyze revenue trends and ride patterns
- Designed fact-dimension schema for analytics
- Developed SQL queries to generate business insights (revenue, trends, peak hours, cancellation rate)
- *Github Link:* https://github.com/PriyamMaharana/OLA_Insights

SCD Type2 Customer Dimension Implementation

Tech: SQL Server, Python, ETL Pipeline, SCD type2

- Implemented **SCD Type 2** logic for tracking historical data changes
- Designed **version-controlled dimension tables with effective date tracking**
- Optimized update operations using **MERGE statements and indexing techniques**
- *Github Link:* <https://github.com/PriyamMaharana/scd-type2-pipeline>

Change Data Capture (CDC) Data Pipeline

Tech: SQL Server, Python, ETL Pipeline, CDC

- Built **CDC-based incremental ETL pipeline** to capture insert, update, delete changes.
- Reduced dependency on full data loads and improved pipeline efficiency.
- Enabled **near real-time data synchronization** for reporting systems
- *Github Link:* <https://github.com/PriyamMaharana/cdc-pipeline>

EDUCATION

Master of Computer Applications (MCA) - *T. John College, Bangalore* | 2023 – 2025 | 8.1 CGPA

Bachelor of Computer Applications (BCA) - *R.K. University, Rajkot* | 2020 – 2023 | 7.1 CGPA
